

# Insulated XL Porcelain Panels

Extra Large Format up to 24" x 126"

Economical, Interlocking, Insulated Panels

US Patent #8,176,701 B2—Canada Patent #2,588,294 & other patents pending

CastleRock™ R-10 to R-20 insulated porcelain panels interlock together like Lego's® & fasten to the wall with screws or staples. A fast, easy installation without mortar, grout or adhesives. Sizes up to 24" x 126" in a huge variety of porcelain colors and styles. The panels are designed to be cut and fit onsite to conform to the building. The lifetime finish never fades, peels or discolors. It is scratch resistant with a Zero Flame Spread rating.

Now, Extra Large Format insulated porcelain panels are available for Commercial or Residential projects.

Step up to the value, beauty and elegance of *CastleRock™ XL Porcelain Cladding*. Eliminate thermal transfer of heat & cold through the studs with the 2" *over the stud* insulation.

CastleRock™ XL Series Porcelain  
**"The Ultimate Exterior Cladding"**

# CastleRock™

Mortar-less Interlocking  
Extra Large Insulated Porcelain Panels

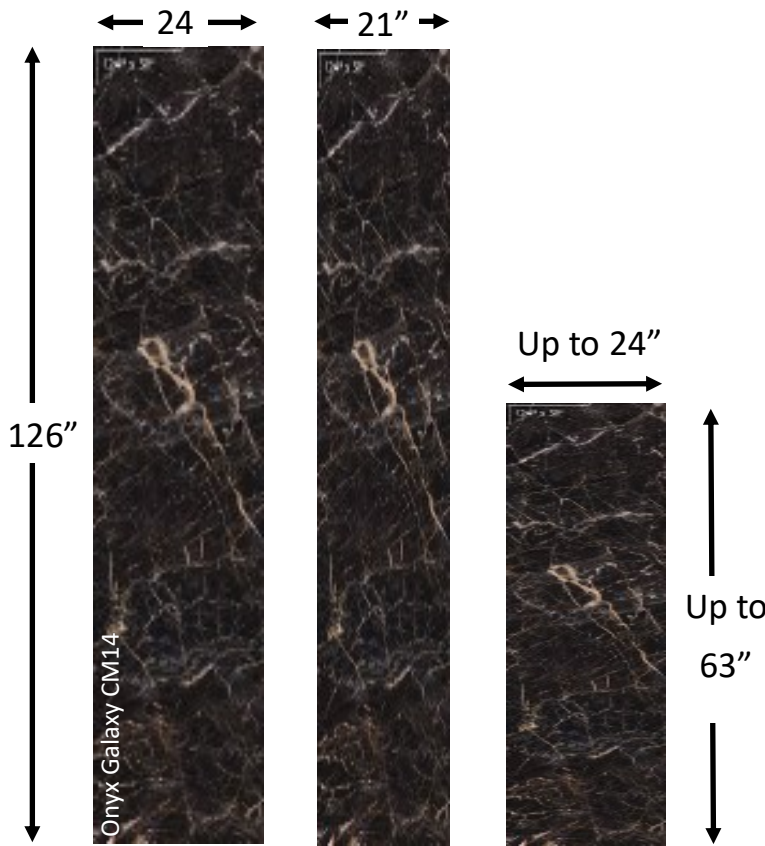

Extra Large Insulated Porcelain Panels

Up to 24" x 126" Panels

Economical, fast & easy to install

Grout-less & Mechanically Fastened

CastleRock™ Extra Large Porcelain Panels are economical, attractive, fast and easy to install. Gasketed joint options restrict water intrusion and can be used for design accent lines similar to grout joints, but the silicone will never crack or fall out like grout or stucco. A variety of standard panel sizes and colors are available for the best look and economy for your project.

<b>Panoramic Porcelain:</b>	6mm thick
